

Evaluated Clinical Experience Acknowledgment Form

Candidates seeking to gain licensure in the United States or Canada, who have been educated in a non-AVMA accredited school or program, may have their educational equivalence determined through the PAVE program. The fourth step in the PAVE Program is clinical proficiency, which may be demonstrated by the successful completion of an Evaluated Clinical Experience at an AVMA-accredited veterinary program.

To assure compliance with the requisite PAVE criteria, candidates who wish to complete an evaluated clinical experience at an AVMA-accredited veterinary program must ensure this form is submitted directly from the school to PAVE before beginning the clinical rotation.

Please have an authorized representative of the school complete and submit this form.

PAVE Candidate: _____ School Attending: _____

Start Date: _____ Anticipated Completion Date: _____

In signing this form, the following is agreed upon:

1. The listed candidate is enrolled in the clinical rotations of the veterinary program listed.
2. The student will be evaluated under the conditions and academic standards required of all other students in the program.
3. The school listed will submit PAVE forms evaluating the performance of the listed candidate to the AAVSB
